For Child2Youth Foundation, the year 2023 saw us grow with successes in the four areas of our interventions namely i) Child Sponsorship, ii) Health, iii) Rural Community Development and iv) Water & Sanitation.

Child sponsorship, our major program, registered more needy children in the program while having others graduating from Universities and Vocational Institutions in different fields while those in lower classes got promotions to higher classes of learning for the year 2024. In addition to educating the needy children through sponsorship, also educational infrastructures (classrooms and dormitories) were constructed in Buyomba and Kanonko rural communities. Also, four dormitories in these two schools were supplied with mattresses and covers, metallic beds, mosquito nets and educational supplies were donated to some primary schools. At the end of the year, we had our annual Child2Youth Foundation Social Day.

In the Health sector, at our rural clinic, the Sisters of St. Joseph Clinic, Kyambogo, we registered increased numbers of patients attending the clinic. A total of 5,663 patients visited the clinic in 2023 while OPD registered the highest numbers-4,134, Maternity and Antenatal-406, Immunisation-312 and Diabetes Mellitus and Hyper/Hypotension-811).

Rural Community Development expanded through animal (cows, goats and pigs) births and the beneficiaries standard of living improved as a result. Many of the sponsored children were given goats by their sponsors.

Water and Sanitation this year involved construction of lined pit latrines for two schools and three rural water sources were improved.

We are so grateful and thankful to the partnerships with True to Africa and REACH International organizations plus our beloved sponsors and donors.

Wishing you all a meaningful new year of 2024.

Ssenyonjo Steven Kironde,

Director,

December 28, 2023

2. ***Child Sponsorship:*** By the close of the year 2023, this program had a total of 411 needy sponsored children ranging from Nursery to Tertiary Institutions (Universities and Vocational Institutes) of learning. Financial and scholastic materials for their learning were provided, their health was catered for, mattresses, blankets, bed sheets, mosquito nets, clothes and Christmas gifts were donated.
