SECOND QUARTER REPORT 2018

Child2Youth Foundation is so much grateful for the support extended to children through education, their families and entire rural communities. Since we don't get rich by the treasures in the bank but by the treasures we bank in the lives or hearts of others then God rewards us and will always bless you. Most children had lost touch in themselves but are now progressing and happy.

CHILD SPONSORSHIP

Being the major program, it is moving on steadily with most children still in school and all have received scholastic materials and school fees is paid in time thus enabling them to be regular at school. Most of these are still focusing on education with the aim of achieving their ambitions in future. For this quarter, nine children got sponsorship and these were from God's Angel P/S, Buyomba and Kanonko Primary School. One major challenge is that we have three girls who have dropped out of school due to early pregnancies. Below were some of the children with their scholastic materials this term:

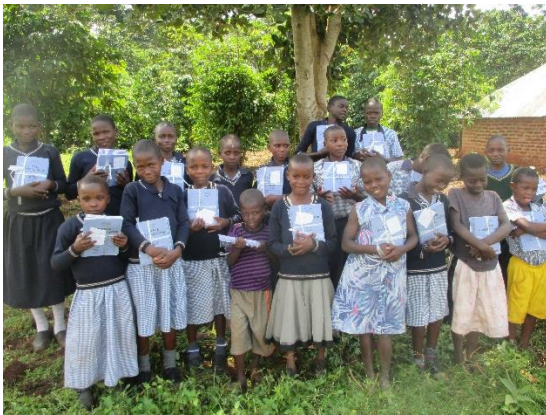

St. Josephs High School, Namagunga both A & O-level students

St. Lwanga Sec. and Liahona High Schools students

Lugasa Parents and Kanonko Primary Schools.

Buyomba Community Academy and God's Angel Primary schools

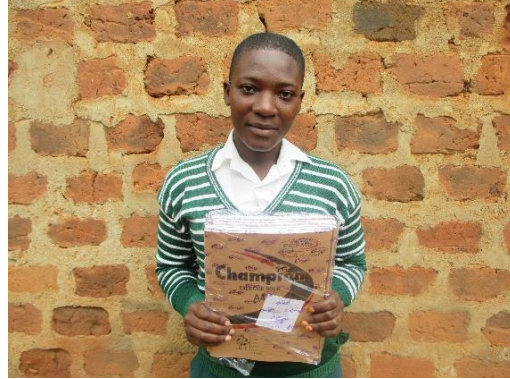

St. Stephen Sec. and Victoria View Sec. Schools

Little Angels Primary and Victors Junior Schools

Bruhan Kikomeko c-f-1-028T and Banged Zam c-f-3-030C

Jackie Katana c-f-1-0675 and Maria Namuddu c-f-3-0166

Emmanuel Kiwalabye c-f-1-028T and Shirat Mirembe c-f-1-023T

Racheal Nabakka c-f-1-0672 and Carol Nakimuli c-f-1-0629

Construction for Kanonko dormitory was completed, equipped with beds and the school developed a policy for all pupils in upper primary to join boarding section next term for better academic performance.

COMMUNITY DEVELOPMENT

Projects are moving on well especially cattle and goat projects. The total number of cows is seventeen (17) and some beneficiaries are selling milk every day to meet some basics of life for their families. Some goats were sold to meet family needs as the number increases.

New members have constructed shelters waiting for the Organization to provide them with different projects.

WATER & SANITATION

All protected spring wells and Lined pit Latrines are still in good state while for the water sources, water user committees continued monitoring them and request community members to clean them always. One protected spring well was constructed in Ssugu village, Buikwe Sub County this quarter and the community is happy since they now access safe and clean water.

Below is the Ssugu well before and after construction:

The C2Y Coordinator(Joel) monitoring the progress of the spring well construction at Ssugu village, Buikwe District.

HEALTH

OPD and maternity services are still going on well at the St. Joseph's Clinic with many clients turning up on both sides. Out Patients Department received 693 clients and maternity received 16 mothers for Antenatal care with 6 deliveries registered.

Twelve referrals were identified and sent to Kawolo and Buikwe Hospitals for further management.

Immunization is being conducted monthly on expectant mothers and children. For this quarter, 85 children were immunized on 5th April, 3rd May and 7th June 2018 dates.

Diseases treated include malaria, respiratory tract infections, cough, Flu, measles and Hypertension,

ACHIEVEMENTS

- ❖ Communities are happy for what the Foundation is offering to them and this is observed through the letters of appreciation sent to the organization.
- ❖ Most children are still in school and nine have got sponsorship this quarter.
- ❖ There is a good turn up of clients at the clinic because of the good services available.

CHALLENGES

- ❖ High expectations in communities.
- ❖ Few girls became pregnant and are out of school.
- ❖ Many communities are requesting for sponsorship, protected spring wells and animal projects but funds are not available to support them

WAY FORWARD

- ❖ The Foundation is to continue being clear and consistent with its goal to avoid raising high expectations.
- ❖ It's a big challenge of early pregnancies but we are still doing our best to counsel and guide children by working hand in hand with their parents/guardians and school administrators.
